

## The Middlesex Hospital Alliance....Connecting with the Future of Care

### JOB POSTING

#### MIDDLESEX HOSPITAL ALLIANCE STRATHROY SITE

#### TWO FULL-TIME EMERGENCY DEPARTMENT PHYSICIANS

**Strathroy Middlesex General Hospital's** community includes the Town of Strathroy, the main urban centre of Strathroy-Caradoc Township. Home to many London and Sarnia commuters, Strathroy is a bustling community of 12,500 with a rich and vibrant downtown, boasting quaint shops and restaurants, and many gracious century homes. Surrounded by rich agricultural farmland, Strathroy offers all the amenities of small town life: a pleasant walk to many beautiful parks and nature trails, a strong sense of community, a pleasant mix of Victorian and modern housing, good schools and shopping. The Hospital is only a short drive to London, Sarnia and the beautiful beaches of Lake Huron, including Grand Bend and the Pinery Conservation area.

Middlesex Hospital Alliance is a partnership of Strathroy Middlesex General Hospital, a seventy-seven bed Acute Care Hospital located in Strathroy, Ontario, and Four Counties Health Services, a sixteen bed Rural Community Hospital located in Newbury, Ontario.

The Strathroy site of our Alliance has undergone a \$15 million expansion, completed in September of 2005, resulting in a new Emergency Department, and Ambulatory Care Centre. The ED is supported by 24 hour on call coverage for anesthesia, surgery, internal medicine, orthopedic, and OBS. The Emergency Department is supported by a crisis response team that provides support for our clients with mental illness. SMGH has a 64 slice CT scanner on site. Patients for urgent ultrasound and CT scanning are prioritized. Other services include a hospitalist program, ICU ventilation management and services in a broad range of specialties.

**We currently have an opening for a Full-time and a Part-time Physician to work in our dynamic Emergency Department with over 27,000 patient visits per year.**

This position requires a seasoned physician, licensed to practice in Ontario, who is experienced in working with physicians, and with a diverse cross-section of all service providers within the hospital setting. The successful will possess current ACLS, and be willing to achieve ATLS and PALS or equivalent qualifications.

As part of the hospital team, the successful candidate will support the vision, mission, corporate values and strategic directions of the organization, and the Chief of Staff in assuring the provision of high quality care to the patients served by the hospital. Physicians are funded under an Alternate Funding Agreement through the Ministry of Health.

If you are interested in applying for this adventurous and challenging opportunity at Strathroy Middlesex General Hospital, please apply, in confidence, with a copy of CV to:
